Education

VIT Bhopal University, Bhopal

Bachelor of Technology in Computer Science and Engineering

8.71 GPA

November 2022 – Present

City Montessori School, Lucknow

ICSE Class 10th: 93% and ISC Class 12th: 95.75%

2018 – 2021

Experience

SDE Intern at ITJobxs.com (Remote)

Oct 2024 – Jan 2025

- Built a fully responsive and device-friendly webpage for the Desi QnA platform, improving accessibility.
- Implemented secure login/signup with encrypted authentication and session handling.
- Integrated Google reCAPTCHA v2 to block spam and bot entries, enhancing security.
- Connected ReactJS frontend to PHP APIs with real-time MySQL CRUD operations.
- Used HTML5, CSS3, JavaScript (ES6+), Bootstrap 5, PHP, MySQL, ReactJS, and reCAPTCHA API.

EricssonEdge Academia (Remote)

Jan 2025 – Mar 2025

- Completed an upskilling program focused on AI, ML, 5G, IoT, Telecom, and Automation.
- Gained practical experience through curated modules and guided projects by Ericsson.
- Strengthened domain knowledge by bridging academic concepts with real-world applications.

Technical Skills

Languages: C/C++, Java, MySQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, Express, MongoDB, Tailwind CSS

Developer Tools: Git, GitHub, VS Code, Visual Studio, AWS(exploring)

Relevant Courses: Data Structures Algorithms, DBMS, Operating Systems, OOP's

Certifications: Cloud Computing (IIT KGP), Bits and Bytes of Computer Networks (Google), Bitcoin for Everyone (Summer of Bitcoin), IELTS (English Proficiency Test)

Projects

Qualysis | React, Node.js, MongoDB, Express.js, Tailwind CSS, bcrypt.js

GitHub

- Developed MERN-stack platform to streamline hiring, including login, dashboard, and role-specific views for recruiters and applicants.
- Built secure login, registration, and logout functionality with encrypted password handling using `bcrypt.js`.
- Integrated real-time messaging between candidates and recruiters, with chat data securely stored in MongoDB.
- Designed recruiter dashboard with job management and applicant tracking for efficient workflow handling.
- Applied role-based access control to isolate recruiter and applicant views, improving usability and system security.

Amazon Clone | React, Firebase, Stripe API, Node.js, Tailwind

GitHub

- Developed a full-stack Amazon e-commerce clone featuring real-time product listings, cart functionality, and a seamless checkout experience.
- Implemented authentication and user management using Firebase Authentication (Sign Up, Sign In, Sign Out).
- Integrated Stripe API to simulate secure real-world transactions and payment processing.
- Built an "Order History" page that stores and retrieves past user orders, enhancing user convenience and app functionality.

Extracurriculars and Achievements

- LeetCode: **Rating 1600+**, solved **500+ problems**, Top 15% among global users.
- Codeforces: **Solved 100+ problems**, top rating **840**.
- Selected as **Internal Finalist** in **Smart India Hackathon**.
- Ranked in **Top 500 out of 9 countries** in **EricssonEdge Academia** challenge.
- Placed **under top 1000 teams out of 52,000** in **Amazon HackOn**.
- Qualified the screening round of **Summer of Bitcoin 2023**.
- Secured **18th position** in the **Lucknow District Chess Sports Association** tournament.
